

## Discovery Days at the Children's Medical Research Institute

Tuesday 3<sup>rd</sup> November 2026

Depart Ryde Eastwood Leagues Club at 9am.

Drop off approx. 3:30pm (*times to be confirmed*)

Step into the world of cutting-edge science and heritage on this unforgettable day tour! Join us for an exclusive visit to the Children's Medical Research Institute, where you will meet leading scientists and witness ground breaking research firsthand. After a morning of inspiration, we'll journey through Parramatta's rich history with a guided tour of its most iconic heritage sites.

The Children's Medical Research Institute (CMRI) is an independent organisation with over 170 scientists committed to finding treatments and cures for serious conditions affecting children.

Today we visit for one of their Discovery Days, a regular event where members of the community are invited to tour the labs, meet the scientists and learn about what they do.

We will have the chance to hear from the institute's world leading scientists about their research and latest breakthroughs and also tour their state of the art research facility to see science in action. A take-home information booklet, a delicious morning tea and light lunch is provided during the day.

This afternoon we will enjoy a Heritage tour of Parramatta taking in such fine buildings as the Old Court House, Elizabeth Farm, James Ruse Cottage, Hambleton Cottage, St Patrick's Church and other historic buildings of the area.

**Cost:**      **\$85.00** members  
                  **\$90.00** non members
