

MAY 2025

Trip to Bright

What a wonderful trip we had to Bright the weather and the company were great and the fact that we were picked up by coach in Kerrimuir and didn't have to drive ourselves was a bonus.

We were taken to some lovely places including a drive up to Mt Buffalo where we could take in the views over the gorge and valleys below ,we could also wander around the Chalet which is closed at the moment and may at some stage be reopened.

A visit to a Deer farm was very interesting with a talk by one of the owners explaining all the products that they manufacture from Deer and Emu, plenty of animals to see including Deer, Ostrich and Emu.for

Also a visit to the Bonegilla Migrant Experience which was really interesting, as you could see where more than 300,000 newly arrived migrants were housed in the post war period.It was wonderful to look around the various buildings and to see what life would have been like for these people in a new country.

Our accommodation at the Bright Chalet was great, with excellent Breakfasts and Dinners providing plenty of variety.

Most of all it was a good way of getting to know our friends in Probus a little bit better with lots of laughter thrown in, especially during the Bingo games organized by Val and Jan.

Hope to see many more of you on our next adventure.

Robyn Howard

We are on our way
