### **President's Prologue**

Dear Homebush Probus Club Members and Friends,

This year Probus celebrates its 50<sup>th</sup> year since the first Probus Club was formed in Australia. The whole of this year will be known as Probus Year to commemorate this achievement.

Yesterday we enjoyed lunch at Waterview, Bicentennial Park. The weather was perfect which encouraged a good turn up. It was good to catch up as it has been several weeks since the Christmas Lunch Meeting at Massey Park Golf Club.

I have spent most of January staying in Bali hotels. Then two nights at Sofitel Wentworth here in Sydney. There are lots of pics included in this issue of *The Homebush Hound*. I have reduced file size for your convenience.

Our next meeting is Monday, 9 February. Ray Rees is our Guest Speaker and the topic is *"The Golden Age of Steam"*. We have had Ray give presentations in the past and he has been excellent. Not to be missed!

Best wishes,

Ian Albertson

*If you are unable to attend the next Probus Meeting on Monday, 9 February please notify Secretary Janelle by text or phone (0457 205 749) so that your apology can be included on the Agenda.*

## FEBRUARY'S GUEST SPEAKER

### RAY REES

Topic: "The Golden Age of Steam"

**Presenter – Ray Rees CMDR, RAN Rtd**

Ray spent over thirty years in the navy, starting out as an apprentice shipwright. After continuing his education and climbing the officer ranks, his last position at sea was as the Marine Engineer Officer in the steam powered guided missile destroyer, HMAS Brisbane. After spending several years in San Diego working on exchange with the USN, he finally retired from the navy as a commander.

He has published a memoir on his life in the RAN, titled "From apprentice to Commander" and has been an active volunteer in the Sydney Heritage Fleet, currently serving on the board of directors and regularly sailing aboard the Barque James Craig.

**Sydney's best kept secret - The Sydney Heritage Fleet**

## Overview

From its establishment in 1965, the organisation, now known as the Sydney Heritage Fleet, has a long history of acquiring, restoring, and operating a wide selection of ships and boats from early Sydney and beyond. With the oldest vessel in the fleet dating back to 1874, sail, steam, and diesel propulsion systems are all represented.

Today, we build social capital by providing opportunities for people of all ages and walks of life to become involved. Restoration, maintenance and learning to operate our old vessels prove that we are never too old to learn and to pass on our skills and experience to others. Together, we make range of vessels available for the public to experience the bygone days upon Sydney harbour and beyond.
