

Directions to Fergus's farm campsite

It is highly recommended that you take a mileage reading from the Water Tower at the junction of Nutley's Creek Rd and Parberry Avenue

The distance from the water tower to the entrance to the camp site is 7.6 Klms, it seems further than it is and can be confusing if you have not gone far enough.

When going down Nutley's Creek Rd you will pass the turn off to Black Marlin Drive, keep going, further on you will see a corrugated sign to The Crossing, keep going on Nutley's Creek Rd. You will come to a small concrete bridge across Nutley's creek and it opens up to paddocks on both sides with buildings on the ridge to the right and then building on the left. KEEP GOING. You will enter bush on both sides of the road which will open out to a paddock on the left hand side, then more bush on both sides. **START LOOKING OUT FOR THE BIAMANGA NATIONAL PARK SIGN** (As in the photo) on your right. We will put balloons at the turn off on your left. Down that track for 300 metres will be the campsite.
