Liberator Bomber [B24] Visit

A group of hearty souls [24] visited the Liberator bomber museum at Werribee On the 7th of August where we were treated to an inside on the performance of the plane in the 2nd World War and beyond, our guide was very informative and as well as extolling the Liberators ability to work on long range targets. He showed us one of our own homemade planes the "Boomerang" which I and several others had not heard of. All in all, it was a very interesting visit with lunch afterwards at the Racecourse Hotel Werribee.

Thank you, Murray.

Thank you, Diane
